

## PANDORA PRODUCT INFORMATION

The Pandora – is part of Nuidears, Inc. exclusive product portfolio. It is a disposable syringe and needle destructor that comes with a replaceable cutter. After use, the contaminated syringe with the needle is inserted in the destructor which generates temperatures above 1600 degrees centigrade thereby completely disintegrating the needle and reducing it to ashes in just two seconds.

This compact device can be placed on a flat surface and is portable, safe and cost effective while creating a safe environment for doctors, nurses, pathologists, healthcare professionals and patients. It is equipped with a disposable tray for easy disposal of needle ash and syringe hubs.

The Pandora can be custom printed to your specifications.

### Key Features

- Compact device
- Portable and safe to use
- Shock proof fuse protection
- Low power consumption
